

- ✓ Reduce customer abandonment rates
- ✓ Obtain accurate data from the start
- ✓ Increase transaction completion rates

ACCELERATE PRODUCTIVITY & FOCUS ON CUSTOMERS

AcuFill instantly extracts accurate data from government issued IDs (driver's licenses, passports, etc.) and medical & auto insurance cards to populate directly in your application. Utilize a desktop scanner or any mobile device to automate customer workflows and streamline database/CRM management. Acufill works in any industry, integrates easily into any environment and reads IDs from over 196 countries and all 50 US states.
